MATHS

Counting on

We are learning to add by counting on from a given number. We will begin this by counting forwards from a given number. We will then add a number by counting on. We will use number tracks and resources to help us to do this.

Home Task: Give your child a number between 0 and 10. Ask them to add a 1-digit number to it. E.g 6 add 4. Can they count on from 6 to give you the answer. Use the number track below and/or any loose items you may have at home to support them.

My 1 to 20 Number Track

NOTES

Homework – look out for

RWI Handwriting Sheets – We will send these sheets home each day. This will be the sound that your child has learnt that day in their RWI lesson. Please read and write this sound with your child. Can you ask them to write a word with that sound in.

Parent comments – please get in touch via email, Class Dojo or Tapestry if you would like to comment on your child's learning.

WRITING

Non- Fiction Writing

We have been learning about butterflies and their life cycle. This week in English we will order and write about the 4 stages in a butterfly's life cycle.

Home Task: There are lots of time lapse videos of a butterfly's life cycle on YouTube. Watch these with your child and ask them to explain what is happening at each stage in a full sentence.

READING

RWI

We will continue to take part in our daily RWI lesson.

Read your child's reading book with them each day. Encourage them to 'find the word' then read it. Remind them to look for 'special friends' before reading the word.

OTHER LEARNING

Understanding the World – we will continue to learn about butterflies including what they eat, the difference between a cocoon and a chrysalis, how many different species of butterflies there are and how they are similar or different.

Home Task: Can you go on a butterfly hunt? How many butterflies did you see? Were they all the same?
