

Year 1 Learning Leaflet

Week beginning 19/04/2021

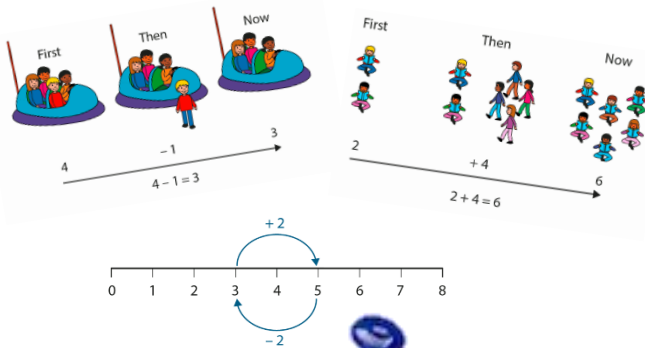

MATHS

Addition and subtraction.

We are using the sequence of 'first, then, now' to identify and solve addition and subtraction calculations including missing numbers and inverse operations.

Home Task: Give your child a calculation ($3+6=9$) and get them to draw a story to match. E.g. First there are 3 children on the carpet, then 6 more join, now there are 9.

WRITING

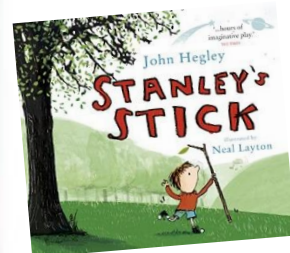

Own version Narrative

We are using the story 'Stanley's Stick' to create our own imaginative narrative. This week we will be using noun phrases, adverbs and conjunctions (and, because, so) to innovate the story to create our own revolving around a magical object.

Ask your child to describe their chosen magical item from Monday. Can they tell you what they want to happen in their story?

PHONICS

This week, the sounds that we will focus on are i-e, o-e and u-e. Ask your child to use their Fred Fingers to sound out and write some words containing this week's split diagraph sounds.

NOTES

Homework - look out for maths and spellings at the end of the week!

School Diary Dates - This week we are participating in Number Day (Monday) and Earth Day (Thursday) so keep an eye on Twitter for photo's!

Parent comments - please get in touch via Class Dojo if you would like to discuss anything about your child's learning.

OTHER LEARNING

Science - We are looking at exploring, identifying and classifying materials that everyday objects are made from. E.g. wood, plastic, stone, brick etc.

Ask your child to identify different materials around the house.

PSHE - This week in PSHE we are thinking about keeping ourselves safe at home and why it is important.
