MATHS

Number to 20

We are focusing on numbers from 11 – 20. We will learn to recognise and these numbers, say the number that is one more or one less than a given number and begin to understand that numbers from 11 – 20 are made up of 10's and 1's.

Home Task: Give your child a number between 11 and 20. Can they recognise it? Ask them to tell you the number that is one more or one less than the given number. Can they also tell you how many tens and how many ones are in the number?

WRITING

Story Writing

We are continuing to learn about different animals that we might find living in our local environment. In English, we will continue to re-write the story 'Oi Frog!'

Home Task: Watch the story on YouTube. Can your child identify the rhyming words. Can they use their phonic knowledge to write some of the rhyming words.

READING

RWI

We will continue to take part in our daily RWI lesson.

Read your child's reading book with them each day. Encourage them to 'fred the word' then read it. Remind them to look for 'special friends' before reading the word.

NOTES

Homework – look out for RWI Handwriting and Reading Sheets – We will send these sheets home each day. This will be the sound that your child has learnt that day in their RWI lesson. Please read and write this sound with your child. Can you ask them to write a word with that sound in.

Parent comments – please get in touch via email, Class Dojo or Tapestry if you would like to comment on your child's learning.

OTHER LEARNING

Understanding the World – we have some very exciting visitors in class this week.... Eggs that will hatch in to chicks. We will be learning how to care for our chicks and the lifecycle of a chicken.

Home Task: Can you draw, write or make the lifecycle of a chick?
